Prices inside EU, taxes not included. Prices are subject to change. All prices are in Euro. ERPA's general terms and conditions apply.

**1 Modules:** When ordering several licenses the number of added modules must correspond to the number of licenses. Modules can easily be purchased later on.

**2 Option network Licence:**

A network license for one concurrent user allows access from several workstations, but only one access at the same time. A network license with two or more concurrent users allows concurrent access to the extent of the acquired number of network licenses (e.g. two concurrent users: basic license 1-stage = 499,00 €, network license: 499,00 € x 2 = 998,00 €; 1 following network license: 1 x 998,00 € + 998,00 €-25%= 748,50 €, thus total price: 1.746,50 €). Every basic license incl. modules can be upgraded to a network license.

**Specials:** - 6 months support and update service (software updates and service via telephone and email free of charge).  
 After the 6 month support period we recommend the acquisition of a service contract.  
 - no shipping expenses

**Payment target:** 10 days net, due without deduction

**Conditions:** EXW, taxes and customs duties not included

**Delivery:** 3 workdays after incoming order by download link. Installation-CD on request.
